Sails area total	69,50 m ²
GT	5,30
Fresh water tank	200 l
Black water tank	42 l
Fuel tank	90 l
Engine	15,3 kW (21 HP)
Design Category	A (Ocean)
CE Certification	GL
Design	J & J

salona 35

The **EXCITING** One

Salona 35 is a result of our experience gained throughout creation and daily use of all our models, from 33 to 60 ft. Her modern and clean deck lines are the continuation of the new distinctive style of Salona that has been introduced by Salona 60 and Salona 38. Spacious cockpit is free of obstacles with an easily convertible open to closed transom and an extensive use of carbon details.

It has two spacious lockers with additional dedicated locker for two gas bottles, two steering wheels with carbon pedestals (optional) and top quality sailing gear which makes single handed sailing easier. Construction, technology and innovation have always been the strong points of the Salona yard and on S35 we have combined our experience with the use of hi tech materials and smart design features. As on all our models the

big stainless steel frame takes the loads from the keel and shrouds and spreads them securely to a wide area of the hull. On the new Salona 35 we have gone one step further in achieving maximum stiffness and durability of the boat by adding the layers of carbon fibre on carefully analyzed areas of hull inner liner to obtain equilibrium of stainless steel structure and inner liner attached to it. We believe

that Salona 35 is one of the best value 35ft performance cruisers on the market. Filled with daylight coming through hull windows with hatches and numerous smart design details, saloon is the perfect place to relax and enjoy the comfort of our yacht. Standard interior is 2 cabin version with spacious head and large navigation table, functional galley and folding bunk beds in the saloon (optional).
