| <b>CE Certification</b>     | Germanischer Lloyd          |
| <b>Design</b>               | J&J design                  |

**salona 41**

## Example of **SUCCESS**

Designed by J&J in collaboration with the in-house Salona development team and with special planning input sought from Maurizio Cossutti (the well-known Italian designer, sailor and race enthusiast), the Salona 41 represents a real team achievement. From a build viewpoint the introduced construction techniques are very exciting and the end result offers comfort fused with safety and stunning performance, conforming to

all IRC and ORC rules. Delightfully sleek of line, marrying good looks with an eminently practicable, spacious, clear cockpit and an easily convertible closed to open transom the Salona 41 positively invites you to examine all her features. With its trademark twin steering wheels, narrow lines and low displacement, the under deck Harken furler optimises even the lightest of breezes making full use of the 140% genoa in as little as 5 knots of wind – very much a boating pleasure.

Below deck is an ambient mixture of spaciousness, comfortable head room (195cm), tasteful furnishings and hand selected matt finished woods. The standard layout (there are four layouts to choose from) offers a well equipped portside galley, a comfortable saloon area (with convertible table to give an extra 205cm berth) and full size navigation station. There is a very spacious owner's cabin, large stern heads and comfortable double

aft cabin. The comfortable interior arrangement has been built with on board living in mind as typified in the owner's cabin which is equipped with three hatches, each fitted with mosquito nets and dark shade plates, two big under seat lockers with large shelves above and a full size 210 cm berth. There is a self-priming under fl bilge pump with the added ability to switch over to a 3m long pipe for vacuum draining of all bilge and engine compartments.
